WORKING EXPERIENCE

CO-FOUNDER & CTO AT BROKERID

June 2025 - Present

- Architects and scales the entire property co-brokerage platform from the ground up, successfully onboarding 500+ users.
- Owns the full technology stack and infrastructure, making all high-level technical and architectural decisions.
- Ships new features continuously while maintaining system stability and code quality.

FULLSTACK DEVELOPER AT STAR GENERATION

June 2025 - Present

Full Time

- Leads the development and architecture of the v2 dashboard website using Next.js and Supabase.
- Spearheads the legacy platform revamp, redesigning the system architecture and ERD to improve scalability.
- Audits existing systems and executes a phased migration roadmap to reduce technical debt.

IT APPLICATION DEVELOPER AT PANIN DAI-ICHI LIFE

Oct 2023 - June 2025

Full Time

- Improved and maintained the Cordova mobile app, resolving 95% of critical bugs and increasing app performance significantly with SQLCipher integration for secure data handling.
- Developed and supported three Spring Boot web applications, adding 5+ new features and resolving critical issues, while ensuring stable SQL Server and REST API connections.
- Enhanced the Ionic Angular hybrid app by implementing 4+ new features and integrating Firebase with REST APIs for real-time data synchronization, improving user experience by 25%.

MOBILE DEVELOPER AT PT CENTRAL ARTIFICIAL INTELLIGENCE

Aug 2022 - Dec 2022

Internship

- Developed a Central POS (Point of Sales) product within 5 months using JavaScript and React Native, leading to a 20% increase in daily transactions for 100+ retail clients.
- Led a team of 3 mobile developers, improving team productivity by 15% through efficient task management and enhancing application UI with the UI/UX Designer Team.
- Implemented 20+ user-friendly application interfaces based on mock-ups from the UI/UX Designer Team to enhance user engagement.

WEB DEVELOPER AT CV ANUGERAH TEKNIK MANDIRI

Aug 2020 - Mar 2021

Freelance

- Developed Anugerah Teknik Mandiri's company website from scratch using HTML and CSS, delivering a fully functional and visually appealing site.
- Designed and implemented a responsive and user-friendly interface, focusing on clean aesthetics and seamless navigation to enhance user experience.
- Ensured full responsiveness and cross-browser compatibility, optimizing for mobile, tablet, and desktop devices, and addressing various browser-specific issues.

PROJECTS

PERSONAL WEBSITE

July 2022 - Present

- Built a portfolio website using Next.js and Tailwind CSS to showcase my software engineering journey.
- Integrated SEO and dynamic content to improve site functionality and user engagement.
